

Grading Systems, Information

The Federal Ministry of Education, Science, Research and Economy herewith informs that for the valuation of foreign examination grades, in particular in the course of a recognition proceeding according to art. 78 of the Universities Act 2002 – UG, BGBl. I No. 120/2002, especially the following two electronic information systems can be used, which are reliable because of their regular updates:

1. Database on recognition ANABIN
(with regard to a few countries, it is still under construction)
2. Short descriptions of the higher education systems of all UNESCO countries, in English language, hosted by IAU (International Association of Universities):
Higher education systems (containing for each country a chapter „grades“)

Other recognition links can be found on the website of ENIC NARIC AUSTRIA.
